

Wall/ceiling luminaire Edge, 10-18W, CCT 3000-5700K, IP20

Item: 7027716

MALMBERGS

Product information

Slim, easy-to-install wall/ceiling luminaire with a timeless design that blends into all types of indoor environments where good and discreet lighting is desired. With CCT via DIP switch, you can easily change the colour temperature from 3000K to 5700K, making this luminaire very flexible regarding the environments in which it can be installed. The option of a PIR sensor contributes to even greater energy savings.

Mounting

Surface mounting on ceiling/wall or flush mounted (Ø65-205 mm) using the springs provided.

Connection

200 mm cable 2x0.75 mm². Junction box available as accessory.

Description

White body and diffuser made of polycarbonate. Incl. LED module and driver. Selectable CCT (3000/4000/5700K).

Specifications

Beam angle	110°
